IT'S NOT ALL WRITTEN YET

UNSWEETENED

No imitations. No pretense.

EDITORIAL [01] /// UNSWEETENED is about showing things as they are: the material, the process and the place where everything begins.

There is something quite beautiful about letting things be exactly what they are, bringing out the best of what is already there.

We make extruded ceramics, and that’s exactly what we want them to look like.

MODULAR THINKING

The EME collection is part of the Modulares 24 family.

The range is based on a familiar architectural module, rooted in the proportions of one-brick and half-brick construction. The 12x12, 12x24, and 24x24 dimensions create a system in which each piece relates to the others while also integrating seamlessly with traditional brick formats.

PRETENDING IT’S REAL

In our EDITORIAL [02] /// PRETENDING IT’S REAL, imagined spaces are made to feel real.

A little inspiration for what could be.

CHILDHOOD JOYS

The EDITORIAL [03] /// CHILDHOOD JOYS comes from a simple question: why not?

Childhood Joys is about thinking like we did as children – before we learned how things were supposed to be. To play, combine, question and build differently – because convention is only one of the possibilities.
